OBJECTIVE: THE FIRST TO RACE AROUND THE WORLD WITH HYDROGEN

OCEANSLAB
RACE TO ZERO EMISSIONS

"No matter what it takes to succeed he will be able to deliver. And it's not just sheer will and talent, skills and preparedness that make the difference. Phil Sharp also airs this positivity and seemingly endless energy only true champions have. He is the one you can always count on."

Jochen Rieker, Chief Editor of Yacht, 2019

KEY INNOVATIONS

Hydrogen Power Module

2020: Inventor of plug & play marinised clean-hydrogen fuel cell to replace fossil fuels

Solar

2017: Development of ultra low weight non-skid solar integrated into deck of Class40 race boat

Wind

2008: Structural design and engineering of 43m wind modular wind turbine blade prototype

KEY MASS MEDIA

"Courageous, innovative, relentless"

The Telegraph
